Education

Indian Institute Of Science Education and Research (IISER) Kolkata
BS-MS in Physical Sciences | Current: 3rd Year

Kalyani, Kolkata
Aug 2023 – May 2028 (**Expected**)

- **Cumulative GPA:** 7.57/10.0
- **Core Courses:** Mechanics, Electromagnetism, Quantum Mechanics(I & II), Thermodynamics, Mathematical Methods(I & II), Programming

Alpha Junior College Of Science and Commerce

- Class 12, HSC (Maharashtra Board) - 77.67%

Vileparle, Mumbai
2023

St. Francis De Sales School

- Class 10, SSC (Maharashtra Board) - 89.60%

Nallasopara, Mumbai
2021

Projects

Modeling Stellar Structure and Evolution
Independent Project

May 2025 - July 2025

- Developed stellar evolution models using **MESA** to simulate stars across $1-100 M_{\odot}$ and varying metallicities.
- Analyzed HR diagrams and temperature–density tracks to study stellar lifetimes and internal structure.
- Published results as an interactive web atlas (<https://stellar-atlas.vercel.app>) and open dataset on Zenodo.
- Reference Textbook: An Introduction to the Theory of Stellar Structure and Evolution, Dina Prialnik
- **Tools:** MESA, mesa_reader, matplotlib, Python, Typst, FFmpeg.

A Study on Hysteresis Loop

March 2024 - November 2024

Under Dr. Bheemalingam Chittari (IISER Kolkata)

- Simulated magnetization dynamics using **Ubermag** (Python–OOMMF interface) to study the effect of exchange energy variations on hysteresis loop area in cubic magnetic systems.
- Explored correlations between exchange constants and magnetic domain response curves.

Workshops Attended

- **AI and ROS for Robotics: Theory and Practice** – IIITDM Kancheepuram, Chennai (Dec 2023)
- **Machine Learning Workshop** – Techfest, IIT Bombay (Dec 2023)

Position Of Responsibilities

- **Event Coordinator** – Inquivesta XII (2025–26)
- **Event Organizer** – Inquivesta XI “Headshot” Esports Event (Feb 2025).
- **Finance Sub-Committee Member** – Student Monitored Canteen (2024–25).
- **Convener** – Gaming Club of IISER Kolkata (2024–25).

Technical Skills

Programming: Python (intermediate), C++, Fortran

Scientific Tools: MESA, Ubermag, NumPy, pandas, matplotlib, mesa_reader, Gnuplot, OriginLab

Scripting & Visualization (basic familiarity): Bash, Streamlit, Next.js, Tailwind CSS, THREE.js, Framer Motion

Other Tools: Git, VS Code, Typst, FFmpeg, Excel, Zenodo

Accomplishments

- Top Team – IISER Kolkata Internal Hackathon (2024, 2025)

[View Certificate](#)
